★THE★ RATSKIN FAMILY BAND

'WORLD'S FIRST ALL-DRAG COUNTRY BAND!'

Official EPK 2026

BAND BIOGRAPHY

The Ratskin Family Band is the world's first all-drag country band (that we know of, at least!). They've been pickin' and sashaying through music venues since April 2024 and have released their debut EP "Back to the Cuntry" in September 2026. The Ratskin Family Band performs country standards, reimagined pop hits and original country songs with queer themes. Get ready for a drag show like no other and a concert the likes of which can't be found anywhere else on this planet. Laugh, cry, dance, and witness some queers absolutely shred some twangy tunes.

On New Year's Eve 2024, two Toronto drag performers and country music musicians made a promise that 2024 would be the year they start a band. Not just any band, but one where drag and music could combine to create a country music space where queerness was openly celebrated and encouraged. From there, a team of fabulous musicians from a variety of different musical and performing backgrounds was assembled. Ever since, the group has been playing, writing, and travelling together, bringing a hootenany wherever they go.

The Ratskin Family Band stand for the country music values of truth-telling, big hair, earnestness and showmanship. They bring high energy to their live shows that sweeten the tender moments, challenging audience expectations of both drag and country music. What sets them apart is the harmony between their exagerrated, over-the-top style and ability to connect with audiences through music and performance.

After their 2026 tour across Ontario and Quebec and the release of their debut EP "*Back to the Cuntry*" in September 2026, The Ratskin Family Band are now working on their debut full-length album and thirsting to travel further with their tales of joy, heartbreak, and everything in-between.
